

## Precinct 2018-19 Highlights

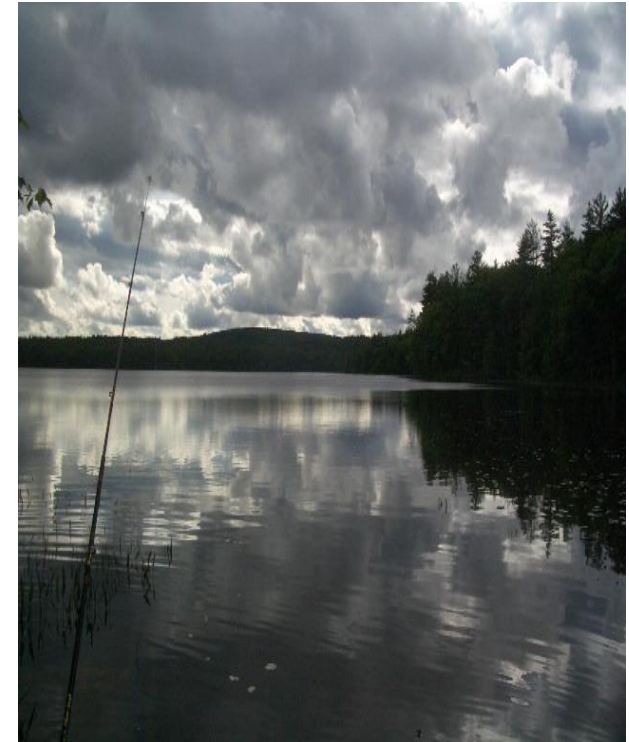

- Creating the Precinct's Asset Management Plan and (CIP)
- Cleaning one of the water tanks
- Assessing and repairing all precinct fire hydrants
- Researching options for building a water tank for Water Street
- Installing a Supervisory Control and Data Acquisition (SCADA) system
- Developing the first Penacook-Boscawen Water Precinct Website
- Receiving a Leak Detection Grant and a final assessment determining our system is tight
- Developing an on-line bill pay system
- Working with the Conservation Commission to provide a recreation area with Precinct land
- Executing professional condition assessments of four water tanks
- Creating the Precinct's first website
- Transitioning the Precinct to a professional water systems operator –Pennichuck, Inc.

***"Pennichuck Corporation's mission is to be the premier supplier of water in New Hampshire by providing reliable, high quality and affordable water in sufficient quantity, and New England's premier supplier of water related contract services by providing high quality solutions to meet our customer's needs."***
